VALLEY PRINTING FTP CONNECTON INFORMATION

Valley Printing's new FTP server is the fast and easy way to transfer large files between artists, designers, and printing professionals. By using the FTP system, we can avoid the size restrictions of e-mail, and the delays & expense of mailing CDs back and forth between companies. Our FTP is set up with individual folder access for each client upon request, to ensure the security and privacy of your documents. This service is provided free of charge to any of our valued customers who request it.

Connecting to our service is quick and hassle free, and can utilize any FTP software currently on the market, including Internet Explorer, Cute FTP, WS FTP Pro and many others. Many of these programs are available for FREE and can be found with a simple internet search.

For Anonymous Upload To A Shared Folder:

Our hostname is: ftp://67.121.20.89

Your Uername is: rampage

Your Password is: rampage

Once you have uploaded your file, please inform Scott either via phone or e-mail :

Scott Gibson - Digital Prepress

(209) 537-4561 - sgibson@valleyptg.com

Please also contact Scott if you have any problems or connection issues with the FTP server.
